

S1 SERIES MICRO MODULE DATA CENTER

[FEATURE]

The cabinet, UPS (link), precision distribution cabinet (link), special air conditioning (link), wiring, ITM data room monitoring (link), security and other subsystems are integrated into the standard size container, which has the characteristics of rapid deployment, energy saving and high efficiency, and can be customized

[RAPID DEPLOYMENT]

Factory preinstalled, less site engineering
Standard container design, convenient transportation

[CUSTOMIZE AVAILABLE]

Customize according to customer's actual requirements

[ENERGY EFFICIENT]

High energy efficiency ratio, sensible heat ratio and flexible refrigeration
UPS has high efficiency and partial load efficiency The minimum PUE value is 1.2
