CAT 8 UTP SOLID CABLE   P/N: CLA04-SFC8

CAT 8 UTP SOLID CABLE
Copper solution

PRODUCT INTRODUCTION

Using multi-core bare copper cord as conductor, transmission performance is outstanding, suitable for 10/100/1000/10G/40GBASE-T Fast Ethernet, ATM155Mbps/622Mbps Ethernet data transmission
The whole cable is effectively shielded with aluminum foil and applied to the shielded wiring to provide anti-interference

PRODUCT FEATURES

- Using for High-speed connectivity of data center networks
- Durablehigh quality connectors can prevent corrosion, high temperaturesand air pollutant
- Shielded braid for entire cable, AL foil for wire pair
- PVC or LSZH jacket available
- Available in 1, 2, 3, and 5 standard lengths, other lengths and colors areavailable upon request
- 50u gold-plated crystal head ensures excellent performance
- Adopting advanced technology and integrated crimping, it effectivelyprevents the crystal head from falling off, making the connection moresecure and reliable
